STANDARD FORM 33 (Rev. 9-97)  
Prescribed by GSA  
FAR (48 CFR) 53.214(c)

**CONTRACT TYPE:** This proposal will result in an Indefinite Quantity Contract (IQC) for a base period of one year and four (4) one-year options.

**GUARANTEED MINIMUM & MAXIMUM: Base period:** The guaranteed minimum quantities are defined in SCHEDULE B of this solicitation. The government will buy the guaranteed minimum quantity for every NSN for the base period only. The maximum that the government may buy is 300% of the guaranteed minimum quantities. **Option periods:** The guaranteed minimum is 50% of the total dollar value of the base year guaranteed minimum. Any combination of National Stock Numbers (NSNs) (not necessarily every NSN) will be purchased to meet this dollar value. The maximum is 150% of the total dollar value of the base year guaranteed minimum.

**PROPOSAL PRICING:** Proposal Pricing is requested for the base year and four option years. Any combination of NSNs may be proposed. There is no requirement to price every NSN. Each year should contain a **separate price for stock delivery** (required delivery days are in the last column under RDD, and vary per NSN), and for **Direct Vendor Deliveries (DVD)** with required delivery of 15 Days ARO. A total of 10 prices should be input. In addition, if Surge Quantities are indicated, five additional surge prices are needed for the base and four option years. Price the Surge NSNs as a stand-alone requirement (exclusive of any base or option period quantities) using the Surge Quantity Column. See additional comments regarding Surge below.

For each NSN offered, insert the unit price for the stock delivery in the upper half of the column. Insert the DVD unit price in the lower half of the column for every NSN offered. (A division line is provided). Pricing must be proposed for the base period and each option period. Price all NSNs using FOB destination (CONUS ONLY) with inspection/acceptance occurring at either origin or destination. Propose with validity of 120 days after due date.

In the contract award that results from this solicitation, the stock delivery line will be identified as "AA". The DVD delivery line will be identified as "AB". The surge delivery line, if applicable, will be identified as "AC". For example, line item 0001AA would be a stock shipment; line item 0001AB would be a DVD shipment; line item 0001AC would be a surge shipment.

**PAPERLESS ORDER PLACEMENT SYSTEM (POPS):** The government intends for awardees to use an electronic, paperless ordering system. See applicable clauses. If you do not intend to participate, this notification must be clearly stated.

**DELIVERY ORDERS (MINIMUM AND MAXIMUM):** Reference Section I, Clause 52.216-19 (I67). The Government intends to issue a Delivery Order for the stock purchase of the guaranteed minimum quantity within six months after contract award. Subsequent Delivery Orders shall be processed using Direct Vendor Delivery. The minimum order quantity of the subsequent delivery orders is 1 each. The maximum order quantity of the subsequent delivery orders is a dollar value of \$25,000.

**FAST PAYMENT PROCEDURE:** Reference Section I, Clause 52.213-1 (I42) shall pertain only to orders placed through the Paperless Order Placement System (POPS).

**REQUIRED DELIVERY DATE (RDD)/FOB:** The RDD for stock deliveries is specified in SCHEDULE B. The days are specified in terms of After Receipt of Order (ARO). Phased delivery is acceptable; however, shipment must be made no later than the specified Required Delivery Date (RDD) for that NSN. If you can not meet the RDD, this notification must be clearly stated on each line item. For DVD orders, the RDD is 15 days ARO. **FOB DESTINATION IS REQUESTED FOR BOTH STOCK AND DVD ORDERS.** Deliveries are for CONUS only. Stock shipments shall

apply to any DLA stock location in the continental United States. DVD shipments apply to any Army, Navy, Marine Corp, Airforce, Coast Guard or federal agency/entity within the continental United States. If you can not meet the DVD delivery requirement, this notification must be clearly stated.

**INSPECTION/ACCEPTANCE:** SCHEDULE B contains table references to Inspection/Acceptance points. NOTE: For all NSNs presently identified as origin inspection, the Quality Assurance Provision (QAP) identified in Schedule B shall be utilized for the initial Stock Delivery Order on **every NSN**. Subsequent Delivery Orders for these NSNs shall convert to inspection/acceptance at destination using QAP 021. Table references are defined as follows:

- |   |  |
|---|--|
| C | Critical item, critical application, failure can harm personnel, cause loss of life; designated by the Military Service as critical. Inspection at origin. |
| 1 | Inspection at origin   |
| 2 | Inspection at destination  |

NOTE: For stock buys marking shall be in accordance with MIL-STD-129.

**B. QUANTITY UNIT PACK:** The contractor may provide alternative QUP quantities based upon more efficient practices that result in reduced unit prices on stock shipments. However, as a minimum, the contractor must price the QUP requirement as specified above for each NSN offered.

**PROPOSAL EVALUATION:** Each NSN will be evaluated independently. Award will be made on the basis of best value to the Government. Reference Section M, Clauses 52.215-9G05 (M10F) and 52.215-9G06 (M10G). There will be only one successful offeror for each NSN. Each offer will be evaluated on the basis of unit price for the guaranteed minimum quantities for base period and estimated quantities for option years. Electronic Bulletin Board quotes will not be accepted. The Government may implement the Add/Delete clause (See Section I, Clause 52.217-9G20) (192F) to add NSNs awarded under this solicitation via modification.

**AUTHORIZED SUPPLIER CERTIFICATION:** If offering material from another manufacturer that meets the requirements as stated in the Procurement Item Description of Schedule B, please provide documentation from the manufacturer showing authorization as a supplier of that item.

**SOURCES OF INFORMATION:** Offerors can reference the following website to determine quantities associated with previous DVD orders for NSNs: <http://www.dscr.dla.mil> Click on "Sitemap". Click on "NSN Procurement Item Description Lookup" which is found under the heading "Sources of Procurement Information". Insert the NSN number and click on "Query".

**SURGE REQUIREMENTS:** This solicitation incorporates surge requirements and contains a surge ordering provision (See Section I, 252.217-7001 (188G). See Attachment 1 for identification of the surge Statement of Work requirements and listing of NSNs. Surge is defined as the "accelerated production, maintenance, and repair of selected items, and the expansion of logistics support services to meet contingencies short of a declared national emergency utilizing existing facilities and equipment" which may be brought about by unforeseen spikes in demand that may materialize as a result of a national emergency, war, international conflict, natural disaster, or unplanned deployment. Surge delivery orders will be identified as a surge order - e.g., "This is a surge order". Such surge orders do not negate the contractor's responsibilities placed for peacetime orders made under the basic contract for the base year and all four option years. **The contractor is required to submit a readiness and sustainability plan prior to award to explain how both**

**the surge quantities and deliveries will be addressed.** The plan should follow the general guidelines of the Data Item Description (DID) provided at Attachment 4. Please price the total surge requirements where noted on SCHEDULE B using the surge delivery schedule provided on Attachment 1 Table.

Describe company's approach for conducting a thorough assessment of its capability (including both company and company supplier-base capabilities) to initially ramp up (i.e., surge) and to sustain provision of supplies to meet the S&S requirements identified in Attachment 1. There is no requirement to conduct the assessment **only to describe** the approach for conducting it, if awarded a contract. Describe an approach to each of the assessment elements below:

- 1) Methodology that enables visibility of, monitoring changes in, assessment of, and reporting on your and your supplier-base capabilities related to the S&S requirements, including any on-line access to suppliers' inventory and production information systems;
- 2) Identification of your and your supplier-base inventories, production capability, on-demand manufacturing and advanced technology capability, or any other means of S&S support that are available to meet S&S requirements. Based on this identification, a description of strategies for meeting the S&S requirements in the solicitation, and explanation of how these strategies will be applied to the items included for S&S in this solicitation;
- 3) Identification of the subset of items included for S&S under this solicitation that may be difficult to provide quickly for initial ramp-up, or to provide at elevated demand levels for sustainment, and the reasons for these difficulties;
- 4) Description of agreements with suppliers that reflect access to supplier-base resources, including any commitments to hold rotating amounts of assets, and time frames for delivering these assets, any commitments to provide access to production capabilities, and time frames for this access, etc.;
- 5) Description of access to and plans for coordinating distribution (receiving, storing, packaging, and issuing) and transportation services needed to meet S&S requirements, including agreements with suppliers of these services, and time frames for services provided.

Clearly identify any apparent and significant investments (dollars), prior to conducting the surge capability assessment, that will be needed to develop S&S capability. For those S&S investments, explain why the investment is needed, what purchases are proposed, the basis for the investment cost, the S&S capability to be gained, and how the investment will be funded. For investments proposed to effect S&S strategies, explain why the proposed strategies (as opposed to other alternatives) are the most cost-effective.

**Price Proposal (prior to award):** Provide proposed price for conducting the S&S capability assessment identified in Attachment 1 and the basis for proposed price. Provide an estimate of any known costs of developing S&S capability, including any significant investments (dollars). Identify the known investments and explain the needs, what purchases are proposed, the surge capability to be gained, how the investment will be funded, and why the investment is the most cost-effective.

**Price Proposal (for any investments identified in post-award surge capability assessment):** Identify the significant investments (dollars) in your S&S capability report proposed for the government to fund, and provide the basis for these costs.

The Surge Requirement will be evaluated on price and will weigh significantly less than past performance and price(s) offered for the Basic and Option Years.

## SECTION B

B21B 11-9 POPS - PRODUCT INFORMATION:  
DSCR (JAN 1996)

Offerors are required to provide the following information regarding the items offered:

MANUFACTURER'S NAME

PART NUMBER/CATALOG NUMBER

Offerors shall write/type this information on the schedule of items below each item description unless such information has already been identified in the item description.

B24A 14-1 FACSIMILE BIDS/PROPOSALS  
DSCR (MAR 1999)

(a) Facsimile bids/proposals, amendments (including final proposal revisions (FPRs)), and withdrawals will not be considered unless authorized in the solicitation by either Provision 52.214-31, Facsimile Bids, or 52.215-5, Facsimile Proposals (Sec L). IF NEITHER PROVISION IS IN THE SOLICITATION, FACSIMILE TRANSMITTED DATA AS DESCRIBED ABOVE SHALL BE REJECTED.

(b) In solicitations that do contain either Provision 52.214-31 or 52.215-5, bidders/offerors are notified that for bid/proposal security reasons the FACSIMILE EQUIPMENT AS IDENTIFIED IN THE PROVISION IS NOT LOCATED AT THE PLACE DESIGNATED FOR RECEIPT OF BIDS/OFFERS. REGULAR INTEROFFICE MAIL PICK-UP OF FACSIMILE TRANSMISSIONS OCCURS AT 10:30 A.M. AND 1:30 P.M. DAILY.

(1) Bids, bid amendments, and bid withdrawals received by the facsimile equipment prior to 10:30 a.m. on the day of bid opening will be presumed to have been received on time.

(2) Proposals, amendments to proposals, withdrawals of proposals, and FPRs received by facsimile equipment prior to 1:30 p.m. on the day of closing will be presumed to have been received on time.

B33 17-5 MANDATORY OPTION REQUIREMENT  
DSCR (MAR 1999)

The option clause in Section I of this solicitation is MANDATORY. FAILURE TO PROVIDE this pricing information may result in rejection of your offer. If Schedule prices are requested on both an origin and destination basis and/or on incremental quantities, option prices must be offered in the same manner.

B33C 17-13 POPS-GENERAL SOLICITATION NOTICE  
DSCR (SEP 1999)

Delivery orders may be placed during the ordering period identified in FAR Clause 52.216-18, Section I. The acquisition contains provisions for 4 option years. (See Section I, DSCR Clause 52.217-9G08.)

B50G 39-1A YEAR 2000 (Y2K) COMPLIANCE NOTICE

D4I 52.211-9G45 POPS-SPECIAL MARKING INSTRUCTIONS  
DSCR (JUN 1999)

NOTICE FOR DIRECT VENDOR DELIVERIES: In addition to the requirements of paragraph 5.1.6.2., Markings of ASTM D3951-95, markings on exterior shipping containers will contain as a minimum the NSN, requisition number, and the contract delivery order number. These markings are to be applied through stenciling or other means, directly to the exterior shipping container or included in the body of the invoice/shipping document which will be permanently affixed to the exterior shipping container. Regardless of method used, all markings must be visible to receiving personnel. When the total number of containers going to the same destination exceeds either 250 pounds (excluding pallet) or a volume of 20 cubic feet, then palletization is required except for 55 gallon drums.

NOTICE FOR SHIPMENT TO DLA STOCK LOCATIONS: Shipments to DLA stock locations must be marked in accordance with MIL-STD-129N dated 15 May 97 and AIM BC 1 with the following exception: Marking, including barcoding, and fragile marking (if required), must be on the outside container and all intermediary containers down to the specified QUP. DSCR Clause 52.211-9G22 (Sec F) applies.

D5 52.211-9G69 BAR CODING REQUIREMENTS  
FOR DIRECT VENDOR DELIVERY  
(DVD) SHIPMENTS  
DSCR (MAY 1999)

(a) This bar coding requirement is applicable only to shipment of material to a location other than a DLA Distribution Depot (i.e., direct vendor delivery (DVD)).

(b) In addition to other marking requirements in this contract, the following separate lines of bar coded data, with Human Readable Interpretation (HRI) printed directly below the element, shall be provided:

(1) Document number and suffix.

(2) National Stock Number (NSN) (in absence of the NSN, the CAGE and Part Number).

(3) ICP Routing Identifier Code (RIC), Unit of Issue, quantity, followed by an 'A' and eight zeros.

(c) These bar code markings shall either be placed on or printed on labels affixed to either the DD Form 250/250c or the commercial packing list. If used on DD Form 250/250c, it should be in blocks 15, 16, 17, etc. In either case, these documents shall be furnished in Packing List Envelopes affixed to the outside of the shipping

I38C 52.211-9004 PRIORITY RATING FOR VARIOUS  
LONG-TERM CONTRACTS  
DLAD (MAR 2000)

This contract is assigned a priority rating under the  
Defense Priorities and Allocations System (DPAS) regulation  
(15 CFR 700) which requires contractors to utilize the  
assigned rating in obtaining the products, materials, and  
supplies needed to fill their contracts. Because this  
contract does not have a specified delivery date, the basic  
contract is not rated; however, orders placed against it  
that include a delivery date are considered rated orders as  
of the date of receipt by the supplier. In the event the  
contractor is unable to obtain the necessary products,  
materials, and supplies to complete the contract, the  
contractor shall immediately advise the Defense Contract  
Management Agency (DCMA) representative or the appropriate  
Defense Supply Center DPAS officer through the cognizant  
Administrative Contracting Officer or procuring contracting  
officer. The DPAS officer or the DCMA plant  
representatives will provide necessary assistance or the  
necessary instructions to complete Department of Commerce  
(DoC) BXA Form 999, Request for Special Priorities  
Assistance. This form will be processed through appropriate  
channels to the DoC who will review and take action to make  
the needed supplies available to the applicant when deemed  
appropriate.

- (2) Any order for a combination of items in excess of 25,000 , or
- (3) A series of orders from the same ordering office within 30 days that together call for quantities exceeding the limitation in subparagraph (1) or (2) above.

(d) Notwithstanding paragraphs (b) and (c) above, the contractor shall honor any order exceeding the maximum order limitations in paragraph (b), unless that order (or orders) is returned to the ordering office within 10 days after issuance, with written notice stating the contractor's intent not to ship the item (or items) called for and the reasons.

## I67A 52.216-19 DSCR NOTE POPS - MINIMUM ORDER QUANTITY DSCR (AUG 1990)

FAR Clause 52.216-19, above, provides for a minimum delivery order amount of \$ 1 EA (DVD) GUAR MIN-Stock . Notwithstanding such minimum order amount, the minimum order quantity per delivery order shall be not less than the Quantity Unit Pack (QUP) quantity (manufacturer's standard pack for items without an identified QUP) and all orders will be in multiples of the QUP.

## I71 52.216-22 INDEFINITE QUANTITY (OCT 1995)

(d) Any order issued during the effective period of this contract and not completed within that period shall be completed by the Contractor within the time specified in the order. The contract shall govern the Contractor's and Government's rights and obligations with respect to that order to the same extent as if the order were completed during the contract's effective period; provided, that the Contractor shall not be required to make any deliveries under this contract after 270 days from the date of contract expiration.

## I88 52.217-9 OPTION TO EXTEND THE TERM OF THE CONTRACT (MAR 2000)

(a) The Government may extend the term of this contract by written notice to the Contractor within 30 days prior to contract expiration; provided, that the Government gives the Contractor a preliminary written notice of its intent to extend at least 30 days before the contract expires.

(c) The total duration of this contract, including the exercise of any options under this clause, shall not exceed 60 months.

## I88G 52.217-7001 SURGE OPTION DFARS (AUG 1992)

The Government has the option to--

(1) Increase the quantity of supplies or services called for under this contract by no more than the amount stated in the schedule; and/or

(2) Accelerate the rate of delivery called for under this contract, at a price or cost established before contract award or to be established by negotiation as

## I91 52.217-9G08 OPTION TO EXTEND THE TERM OF THE CONTRACT - SUPPLIES DSCR (JUL 2000)

(b) THE OFFEROR AGREES TO FURNISH DURING THE OPTION PERIOD THOSE ITEMS CITED IN THE SCHEDULE AT UNIT PRICES AS INDICATED BELOW:

CAUTION: Failure to indicate one of the following may result in rejection of your offer.

- [ ] Option unit prices are the same as the unit prices offered for the basic contract, or
- [ ] Option period unit prices are as indicated in the schedule.

## I92BA 52.217-9G15 FLEXIBLE OPTIONS DSCR (NOV 1996)

(a) This solicitation is for an indefinite quantity with a guaranteed minimum for one year, the base year. It also includes 4 options for one year each.

(c) To exercise this right, the Government will provide written notice of its intent to exercise the option any time after having ordered 80% of the stated maximum or within thirty days of the effective date of any delivery order that reaches the stated maximum quantity.

## I92F 52.217-9G20 ADDITION/DELETION OF ITEMS ON CONTRACT DSCR (DEC 2000)

(a) The Government retains the right to unilaterally delete from the contract, at each option renewal period, any items which were awarded on a sole source basis, in the event that an alternate product is available from another source.

(b) The Government reserves the right to bilaterally add to the contract new or replacement items, by modification, at prices to be negotiated. All new requirements are subject to full and open competition for the period of time remaining on the contract prior to addition to the contract.

(c) If any item in this contract becomes obsolete or is discontinued as a commercial catalog item, the contractor will provide the Government thirty (30) days advance written notice of such obsolescence, or cancellation and agrees to honor delivery orders for the item issued under this contract during such thirty (30) day period. The Government will delete any such item from this contract after receiving the required notice. If the contractor considers another commercial catalog item as a suitable substitute or replacement for the discontinued item, it will so advise the Government at the time it advises of the discontinued item. If the Government elects to include the replacement item in the contract, the contract will be modified accordingly.

(d) If the contractor discontinues an item without replacement, the contractor will advise the Government of alternate sources of supply for a comparable item.

I199 52.233-1 DISPUTES (DEC 1998)

## DSCR NOTE:

DSCR has in place a process to mediate two types of contract disputes: (1) contract claims filed pursuant to the Contract Disputes Act of 1978, as amended, 41 U.S.C. 601-613, (CDA), prior to issuance of a final decision by the contracting officer, that arise as a result of either a contractor or government claim, except for proposed Terminations for Default, and (2) other contract disputes, resulting from an issue in controversy, that the contracting officer determines suitable for mediation. Mediation involves a neutral, called a mediator, who assists both parties as they try to resolve their dispute voluntarily and produce a solution that is acceptable and beneficial to both. After unsuccessful negotiations over an issue in controversy have proven ineffective in either situation, the contracting officer will contact the contractor seeking to resolve the dispute through mediation. In either situation, a contractor's decision not to engage in mediation shall be conveyed in writing to the contracting officer.

Mediation undertaken pursuant to this process does not waive the statutory time limitations of the CDA, within which a contracting officer must issue a final decision on a claim filed pursuant to the CDA, as expressed in FAR Clause 52.233-1, Disputes, paragraph (e). If mediation is unsuccessful, the parties retain their existing rights under the CDA. DSCR (MAY 1999)

K2 52.203-2 CERTIFICATE OF INDEPENDENT PRICE DETERMINATION (APR 1985)

(a) The offeror certifies that:

(1) The prices in this offer have been arrived at independently, without, for the purpose of restricting competition, any consultation, communication, or agreement with any other offeror or competitor relating to (i) those prices, (ii) the intention to submit an offer, or (iii) the methods or factors used to calculate prices offered.

(2) The prices in this offer have not been and will not be knowingly disclosed by the offeror, directly or indirectly, to any other offeror or competitor before bid opening (in case of a sealed bid solicitation) or contract award (in the case of a negotiated solicitation) unless otherwise required by law; and

(3) No attempt has been made or will be made by the offeror to induce any other concern to submit or not to submit an offer for the purpose of restricting competition.

(b) Each signature on the offer is considered to be a certification by signatory that the signatory --

(1) Is the person in the offeror's organization responsible for determining the prices being offered in this bid or proposal, and that the signatory has not participated and will not participate in any action contrary to Subparagraphs (a)(1) through (a)(3) above; or

(2)(i) has been authorized, in writing, to act as agent for the following principals in certifying that those principals have not participated, and will not participate in

52.207-4 ECONOMIC PURCHASE QUANTITY -  
SUPPLIES (AUG 1987)

(a) Offerors are invited to state an opinion on whether the quantity(ies) of supplies on which bids, proposals, or quotes are requested in this solicitation is (are) economically advantageous to the Government.

(b) Each offeror who believes that acquisition in different quantities would be more advantageous is invited to recommend an economic purchase quantity. If different quantities are recommended, a total and a unit price must be quoted for applicable items. An economic purchase quantity is that quantity at which a significant price break occurs. If there are significant price breaks at different quantity points, this information is desired as well.

OFFEROR RECOMMENDATIONS

ITEM	QUANTITY	PRICE QUOTATION	TOTAL
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____
_____	_____	_____	_____

(c) The information requested in this provision is being solicited to avoid acquisitions in disadvantageous quantities and to assist the Government in developing a data base for future acquisitions of these items. However, the Government reserves the right to amend or cancel the solicitation and resolicit with respect to any individual item in the event quotations received and the Government's requirements indicate that different quantities should be acquired.

K7A 52.209-5 CERTIFICATION REGARDING DEBARMENT,  
SUSPENSION, PROPOSED DEBARMENT,  
AND OTHER RESPONSIBILITY MATTERS  
(MAR 1996)

(a)(1) The offeror certifies, to the best of its knowledge and belief, that -

(i) The offeror and/or any of its principals -

(A) are ☐ are not ☐ presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency;

(B) have ☐ have not ☐, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, state, or local) contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, or receiving stolen property; and

(C) are ☐ are not ☐ presently indicted for, or otherwise criminally or civilly charged by a Governmental entity with, commission of any of the offenses enumerated in Subdivision (a)(i)(B) of this provision.

(ii) The offeror has ☐ has not ☐, within a three-year period preceding this offer, had one or more contracts terminated for default by any Federal agency.

(2) 'Principals,' for the purposes of this certification, means officers, directors, owners, partners; and, persons having primary management of supervisory responsibilities within a business entity (e.g., general manager; plant manager; head of a subsidiary, division, or business segment, and similar positions).

This certification concerns a matter within the jurisdiction of an agency of the United States and the making of a false, fictitious, or fraudulent certification may render the maker subject to prosecution under Section 1001, Title 18, United States Code.

(b) The offeror shall provide immediate written notice to the Contracting Officer if, at any time prior to contract award, the offeror learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.

(c) A certification that any of the items in paragraph (a) of this provision exists will not necessarily result in withholding of an award under this solicitation. However, the certification will be considered in connection with a determination of the offeror's responsibility. Failure of the offeror to furnish a certification or provide such additional information as requested by the Contracting Officer may render the offeror nonresponsible.

(d) Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render, in good faith, the certification required by Paragraph (a) of this provision. The knowledge and information of an offeror is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.

(e) The certification in paragraph (a) of this provision is a material representation of fact upon which reliance was placed when making award. If it is later determined that the offeror knowingly rendered an erroneous certification, in addition to other remedies available to the Government, the Contracting Officer may terminate the contract resulting from this solicitation for default.

positions and open a dialogue. The mediator does not make any decisions on the dispute, but rather helps the parties explore their concerns and possible avenues for solutions. Any mediation will occur at DSCR. A trained DSCR mediator who has not had previous personal involvement in the procurement will conduct the mediation. If resolution of the protest is not reached through the mediation process, the protest will be forwarded to the Chief of the Contracting Office for a written decision on the record. If an offeror wishes to file an Agency-level protest, but does not wish to engage in a mediation, the Agency-level protest should state that the protesting party does not wish to participate in a mediation and would like a decision on the written record.

M10F 52.215-9005 AUTOMATED BEST VALUE SYSTEM  
DSCR (JAN 2001)

(a) The Automated Best Value System (ABVS) Score as an Element of Past Performance Evaluation.

(1) ABVS scores do not determine eligibility for award or technical acceptability. The Government shall use ABVS scores to compare past performance among offerors, not to make determinations of responsibility.

(2) To evaluate each offeror's past performance, DLA will assign an ABVS score to each offeror based on the offeror's past performance. ABVS scores for performance in each Federal Supply Class (FSC score) will be based on DLA consolidated performance history. An offeror may have multiple FSC scores but will have only one DLA score, which is a compilation of the offeror's FSC scores for all business conducted with DLA. These scores will be calculated monthly and remain in effect for a month. The ABVS score is a combination of an offeror's delivery and quality scores. The quality score reflects validated contractor caused product and packaging nonconformances during the rating period. For administrative purposes, the rating period excludes the most recent 30 days. The delivery score reflects all lines shown as delinquent during the rating period. For administrative purposes, the rating period excludes the most recent 60 days. For ABVS purposes, delinquent lines represent shipments not shipped and/or received in their entirety by the contract delivery date. The 30 and 60 day offset periods are NOT grace periods.

(3) DSCR will make negative quality and delivery data reflected in the ABVS score available to offerors by the 15th day of the month via the ABVS Website. The offeror's negative performance data will be posted before it is reflected in the ABVS score (Preview Period), to give offerors an opportunity to review and verify data. An offeror must challenge any negative data within the Preview Period to assure corrections are posted before calculation of the score. Offerors must submit challenges and substantiating evidence (e.g. invoices, DD Form 250s, modifications) to the ABVS Administrator. The 'Center' field will identify the appropriate focal point. For those identified as 'DSCR,' send challenges to:

Defense Supply Center Richmond  
Attn: DSCR-RZP (ABVS)  
8000 Jefferson-Davis Highway  
Richmond, VA 23297-5516

Telephone (804) 279-6881  
FAX (804) 279-5042

(4) Though offerors may challenge negative data at any time, it is to the offeror's advantage to challenge negative data during the Preview Period before it has an opportunity to be reflected in the ABVS score. Accordingly, an offeror should review performance data on a monthly basis at a minimum. When a challenge is received, the ABVS score will be flagged. The flag will remain until the challenge is resolved. If an offer under evaluation involves a challenged score, then the Contracting Officer will consider the nature of the challenged data and its relevance to the acquisition as part of the award decision. The ABVS Administrator will adjust the ABVS score if the Administrator upholds an offeror's challenge. Scores created in the update cycle immediately following the determination will reflect the adjustment.

(5) When there is a discrepancy between the offeror's challenged data and the Government's data, it becomes disputed data. The Government will make every effort to resolve the discrepancy expeditiously. However, the Government is the final authority for resolution of disputed data and its use in the source selection process, and may make an award decision despite the existence of an unresolved challenge.

(b) Using the ABVS score for evaluation.

(1) The contracting officer will first evaluate offers using the FSC score for the solicited FSC in effect at the time offers are evaluated. The contracting officer will use an offeror's DLA score to evaluate an offeror without an FSC score for that particular FSC. The contracting officer may consider the volume of business on which the FSC score is based as a measure of confidence in

the score's indication of performance risk. The contracting officer may choose to use the DLA score if he or she lacks confidence in the FSC score. The contracting officer also may use the DLA score if the FSC scores among offerors are relatively equal. An offeror with no performance history will not be evaluated favorably or unfavorably and will be assigned a '999.9' in the ABVS. A '999.9' is used to designate those instances wherein the offeror has no past performance history, has no history for the particular FSC or has no history for the timeframe being rated.

(2) Contractor caused discrepancies or delinquencies will be reflected in the ABVS as an indicator of past performance. Repair, replacement or reimbursement of quality and packaging defects will not provide relief of negative ABVS data. Contractor caused delivery extensions, regardless of consideration paid, will be reflected in the delivery score.

M10G 52.215-9G06 EVALUATION AND AWARD  
DSCR (FEB 2000)

(a) AWARD. The Government intends to evaluate proposals and, if necessary, conduct discussions with all responsible offerors within the competitive range. The award will be made to the offeror whose proposal conforms to the terms and conditions of the solicitation and represents the best value to the Government. Therefore, award may be made to other than the lowest priced or the highest technically rated offer.

(b) RELATIVE IMPORTANCE AND TRADE-OFFS. The Government will base the determination of best value on a comparative assessment of the offerors' prices, past performance, and the other evaluation factors identified elsewhere in this solicitation. The determination of best value also considers the relative importance of the evaluation factors. All evaluation factors, when combined, are:

- ☐ significantly more important than cost or price. As other evaluation factors become more equal, the evaluated cost or price becomes more important.
- ☒ approximately equal to cost or price; or
- ☐ significantly less important than cost or price. As the evaluated cost/price becomes more equal, relative importance of all other evaluation factors becomes more significant.

The final award decision may involve a trade-off among cost or price and the non-price factors. Factors that may be considered in the trade-off process include, but are not limited to:

Item criticality and weapons system application  
Delivery schedule and current inventory status  
Historical delivery or quality problems  
Concerns over limited supply sources and industrial base  
Benefits from obtaining new sources

(c) COST OR PRICE. The Government will evaluate the offered cost or price for cost realism, as defined in FAR 15.401, and reasonableness. The Government will add any other cost or price evaluation factors identified elsewhere in this solicitation (e.g. Buy American Act or FOB Origin transportation costs) to arrive at the offeror's evaluated cost or price. The evaluated cost or price will be used in conjunction with the other non-price factors to determine the best value to the Government.

(d) PAST PERFORMANCE EVALUATION FACTORS. The Government will use the past performance evaluation factors marked below in addition to cost or price and other evaluation factors specified in the solicitation. Unless indicated otherwise, past performance is significantly more important than other non-price factors. Within the past performance subfactors, ABVS scores will be weighed most heavily because of their relevance to DSCR awards. Quality history and delivery schedule compliance will be weighed more heavily than the remaining past performance subfactors. All other non-price evaluation factors specified in this solicitation weigh equally, unless otherwise indicated.

(e) PAST PERFORMANCE. Past performance includes, but is not limited to, the offeror's record of conforming to contract requirements and standards of good workmanship; adherence to contract schedules, including the administrative aspects of performance; the offeror's reputation for reasonable and cooperative behavior and commitment to customer satisfaction; and generally, the offeror's business-like concern for the customer's interest.

(i) Offerors may submit with their offer information on past and current Federal (non-DSCR), State and local government and private sector contracts performed by the offeror at the proposed performance location within the last three years that are similar in nature to this acquisition. Offerors electing to submit this data must furnish at least the following information: name and address of the contracting entity; the contract number; award and completion dates; the dollar value; the contract type; the items or services provided; two references, with title and phone number; and any problems encountered and the corrective action taken by the offeror.

(ii) By submitting past performance information, the offeror agrees to permit the Government's representatives to contact the listed references and inquire of the offeror's performance. If more than three contracts are identified, the Government reserves the right to randomly select and limit its review to three contracts. In addition to the information provided, the Government may consider information obtained from other sources when evaluating the offeror's past performance. Offerors will be given the opportunity to discuss negative past performance information obtained from references if the offeror has not had a previous opportunity to comment on that information.

(iii) In addition to the information above, DSCR will use the Automated Best Value System (ABVS) to evaluate quality and past performance on DLA awards (see 52.215-9G05).

(iv) Offerors with no past performance history (whether internal or external to the Federal government) will not be evaluated favorably or unfavorably.

**STATEMENT OF WORK,  
SURGE AND SUSTAINMENT**

**&**

**LISTING OF SURGE NSNs**

## **SURGE AND SUSTAINMENT/STATEMENT OF WORK**

Surge and sustainment (S&S) capability is defined as the ability of the contractor to meet increased quantity/accelerated delivery requirements, using supplier base capabilities, in support of a broad spectrum of possible contingencies. This ability includes both a capability to ramp-up quickly to meet early requirements (i.e., surge), as well as to sustain an increased pace throughout the contingency(s) (i.e., sustainment). The spectrum of possible contingencies includes major theatre warfare and smaller-scale contingency operations. The increased quantity/accelerated delivery requirements are those above and beyond normal peacetime requirements.

The S&S capability defined above refers to an overall capability. Throughout the life of the contract, there may be multiple contingencies, each of which involves a ramp-up (i.e., surge) and sustainment period. The capability level defined in this paragraph should encompass all of these contingencies. Also, the above capability refers to quantity levels above and beyond normal peacetime requirements.

The contractor shall have full S&S capability to provide the S&S requirements identified in Schedule B to this solicitation, within 4 months after award of this contract. This capability shall be developed through the S&S assessment process and (if necessary) S&S investments as described below.

The S&S quantities in Schedule B to this solicitation, or any portion thereof, may be ordered at any time before acceptance by the Government of the final scheduled delivery under this contract. Such orders will not extend delivery more than 6 months beyond the scheduled final delivery.

The contractor shall submit an S&S capability report prior to award of the contract. The report must address the following: 1) the contractor's methodology enabling visibility of, assessment of, monitoring changes in, and reporting on supplier base resources on a continuing basis; 2) identify supplier base inventories, production/on-demand manufacturing/advanced technology capacities, or any other means of support available to meet S&S requirements, and (based on this identification) describe S&S strategies for all surge items; 3) identify problem items for which S&S cannot be easily met, the reason(s) for the difficulty, proposed solutions for these items, and any significant investments (dollars) needed to implement these solutions; 4) contractor's agreements with suppliers and service providers that reflect access to S&S resources, including time frames for this access; and 5) description of access to and plans for coordinating distribution and transportation services for meeting S&S delivery terms, including agreements with suppliers of these services, and time frames for services to be provided. To the maximum extent possible, the above information shall be provided on an item-by-item basis, or in item groupings based on similar supplier base capabilities or S&S strategies. Item data, or item grouping data, addressing the above information shall be submitted in a database format as part of the S&S capability report.

The contractor shall clearly identify any significant investments (dollars) under 3) or any of the sections above, needed to develop S&S capability. For those S&S investments, explain why the investment is needed, what you propose purchasing, the basis for the investment cost, the S&S capability to be gained, and how you anticipate the investment will be funded. For investments proposed to effect S&S strategies, include an analysis of what S&S strategies were examined and why the proposed strategy(ies) is(are) the most cost-effective ones.

When conducting the assessment of supplier base resources, the contractor shall consider any source restriction requirements from laws, regulations, or specifications. If these restrictions impact the availability of sufficient S&S quantities, ability to deliver S&S quantities within required time frames, accessibility to advanced state-of-the-art commercial technology in support of S&S requirements, or have other impacts that limit S&S capability, these impacts should be described in the assessment.

Within 1 month after receipt of the S&S capability report, the Contracting Officer will notify the contractor of approval, conditional approval, or disapproval. The Government reserves the right to require additional reports if the initial submission is not approved. Once the S&S capability report has been approved by the Contracting Officer and any needed funds are available, the contractor shall implement the approved S&S strategies (i.e., make approved investments or take any other actions needed). The Contracting Officer may request status on post-approval investments/actions, on an as-needed basis.

Within 1 month after approval of the S&S capability report, the contractor shall submit a S&S validation plan that defines how the S&S capability can be verified. Within 2 weeks after receipt of the S&S validation plan, the Contracting Officer will notify the contractor of approval, conditional approval, or disapproval. The Government reserves the right to require submission of additional plans if the initial submission is not approved.

After approval by the Contracting Officer of the S&S validation plan, the contractor may be required to conduct S&S tests, or to allow the government to perform S&S tests, to validate the S&S capability. These tests may be paper exercises, simulations, command post exercises, participation in live exercises, participation in JCS and CINC exercises approved in the DLA Joint Training Plan, or any other methodology that can validate the developed S&S capability. S&S testing may use (but is not limited to use of) the contractor's approved S&S validation plan. Within one week after conduct of the test, the contractor shall submit to the Contracting Officer a validation results report that clearly describes performance under the test, identifies all deficiencies found, and provides a plan of action to remedy these deficiencies.

The Government may refine, reassess, or update its S&S requirements during the life of this contract. Also, the contractor's supplier base capabilities may change during the life of this contract. Either of these conditions may necessitate contractor reassessment of its supplier base capabilities, development of new/changed S&S strategies, and reevaluation/change of S&S validation plans. Changes in S&S requirements will be made through bilateral contract modifications. Changes in S&S capabilities/validation plans will be made through contractor

resubmissions and Contracting Officer approvals of revised S&S capability and S&S validation plans.

The contractor shall report on the status of S&S quantities ordered and on all supplier base resources (i.e., inventories, production/advanced technology capabilities, etc.), on an as needed basis during a contingency(s). The contractor may also be required to provide a report on S&S performance, during the contingency or afterwards.

Performance of the S&S requirements in this clause will be considered in the government's evaluation to determine whether exercise of the option is the most advantageous method of fulfilling the government's need. Performance elements to be considered are: any development of S&S capability (including submission of S&S capability report), maintenance of S&S capability, development of S&S validation plan (including submission of S&S validation plan), performance on S&S validation tests (including submission of S&S validation results report), and actual delivery of S&S requirements.

The above language does not limit the government's right, at any time after award, to perform inspections or tests of the contractor's S&S capability, whether this capability is fully developed or not. In the event a contingency occurs before the contractor develops full S&S capability, or contingency requirements exceed those defined in Schedule B, the contractor shall support S&S requirements to the maximum extent possible.

If the contractor fails to perform in accordance with the requirements of this SOW paragraph, a contingency(s) arises prior to the required date for fully developed S&S capability, or other circumstances create a need, the government has the right to take any action necessary to obtain S&S requirements from other sources (including sources in the contractor's supplier base).

This language does not relieve the contractor from responsibility for providing peacetime level quantities during the contingency.

The Surge Requirement will be evaluated on price and will weigh significantly less than past performance and price(s) offered for the Basic and Option Years.

**INSTRUCTIONS FOR COMPLETING DD FORM 1423**  
(See DoD 5010.12-M for detailed instructions.)

**FOR GOVERNMENT PERSONNEL**

**Item A.** Self-explanatory.

**Item B.** Self-explanatory.

**Item C.** Mark (X) appropriate category: TDP - Technical Data Package; TM - Technical Manual; Other - other category of data, such as "Provisioning," "Configuration Management," etc.

**Item D.** Enter name of system/item being acquired that data will support.

**Item E.** Self-explanatory (to be filled in after contract award).

**Item F.** Self-explanatory (to be filled in after contract award).

**Item G.** Signature of preparer of CDRL.

**Item H.** Date CDRL was prepared.

**Item I.** Signature of CDRL approval authority.

**Item J.** Date CDRL was approved.

**Item 1.** See DoD FAR Supplement Subpart 4.71 for proper numbering.

**Item 2.** Enter title as it appears on data acquisition document cited in Item 4.

**Item 3.** Enter subtitle of data item for further definition of data item (optional entry).

**Item 4.** Enter Data Item Description (DID) number, military specification number, or military standard number listed in DoD 5010.12-L (AMSDL), or one-time DID number, that defines data content and format requirements.

**Item 5.** Enter reference to tasking in contract that generates requirement for the data item (e.g., Statement of Work paragraph number).

**Item 6.** Enter technical office responsible for ensuring adequacy of the data item.

**Item 7.** Specify requirement for inspection/acceptance of the data item by the Government.

**Item 8.** Specify requirement for approval of a draft before preparation of the final data item.

**Item 9.** For technical data, specify requirement for contractor to mark the appropriate distribution statement on the data (ref. DoDD 5230.24).

**Item 10.** Specify number of times data items are to be delivered.

**Item 11.** Specify as-of date of data item, when applicable.

**Item 12.** Specify when first submittal is required.

**Item 13.** Specify when subsequent submittals are required, when applicable.

**Item 14.** Enter addressees and number of draft/final copies to be delivered to each addressee. Explain reproducible copies in Item 16.

**Item 15.** Enter total number of draft/final copies to be delivered.

**Item 16.** Use for additional/clarifying information for Items 1 through 15. Examples are: Tailoring of documents cited in Item 4; Clarification of submittal dates in Items 12 and 13; Explanation of reproducible copies in Item 14.; Desired medium for delivery of the data item.

**FOR THE CONTRACTOR**

**Item 17.** Specify appropriate price group from one of the following groups of effort in developing estimated prices for each data item listed on the DD Form 1423.

a. Group I. Definition - Data which is not otherwise essential to the contractor's performance of the primary contracted effort (production, development, testing, and administration) but which is required by DD Form 1423.

Estimated Price - Costs to be included under Group I are those applicable to preparing and assembling the data item in conformance with Government requirements, and the administration and other expenses related to reproducing and delivering such data items to the Government.

b. Group II. Definition - Data which is essential to the performance of the primary contracted effort but the contractor is required to perform additional work to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, or quality of the data item.

Estimated Price - Costs to be included under Group II are those incurred over and above the cost of the essential data item without conforming to Government requirements, and the administrative and other expenses related to reproducing and delivering such data item to the Government.

c. Group III. Definition - Data which the contractor must develop for his internal use in performance of the primary contracted effort and does not require any substantial change to conform to Government requirements with regard to depth of content, format, frequency of submittal, preparation, control, and quality of the data item.

Estimated Price - Costs to be included under Group III are the administrative and other expenses related to reproducing and delivering such data item to the Government.

d. Group IV. Definition - Data which is developed by the contractor as part of his normal operating procedures and his effort in supplying these data to the Government is minimal.

Estimated Price - Group IV items should normally be shown on the DD Form 1423 at no cost.

**Item 18.** For each data item, enter an amount equal to that portion of the total price which is estimated to be attributable to the production or development for the Government of that item of data. These estimated data prices shall be developed only from those costs which will be incurred as a direct result of the requirement to supply the data, over and above those costs which would otherwise be incurred in performance of the contract if no data were required. The estimated data prices shall not include any amount for rights in data. The Government's right to use the data shall be governed by the pertinent provisions of the contract.

# DATA ITEM DESCRIPTION

Form Approved  
OMB No. 0704-0188

The public reporting burden for this collection of information is estimated to average 110 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing the burden, to Department of Defense, Washington Headquarters Services, Directorate for Information Operations and Reports (0704-0188), 1215 Jefferson Davis Highway, Suite 1204, Arlington, VA 22202-4302. Respondents should be aware that notwithstanding any other provision of law, no person shall be subject to any penalty for failing to comply with a collection of information if it does not display a currently valid OMB control number. PLEASE DO NOT RETURN YOUR FORM TO THE ABOVE ADDRESS.

1. TITLE	2. IDENTIFICATION NUMBER
PRODUCTION SURGE PLAN	DI-MGMT-80969

3. DESCRIPTION/PURPOSE

3.1 The Production Surge Plan delineates a contractor's capability to rapidly accelerate and sustain production utilizing existing facilities and equipment in a peace time acquisition environment without declaration of war or mobilization and subsequent use of emergency war powers.

3.2 The Production Surge Plan provides data on the maximum sustainable production rate; long leadtime, critical or pacing items/components; other contracts with production surge provisions; probable surge impact; additional skilled labor requirements; strategic or critical materials, precious metals, and substitute materials; and suggested tooling and/or equipment to improve surge protection capability. This data provides for surge (accelerated production) planning of select items.

4. APPROVAL DATE (YYYYMMDD)	5. OFFICE OF PRIMARY RESPONSIBILITY (OPR)	6a. DTIC APPLICABLE	6b. GIDEP APPLICABLE
900423	A/AMCCOM/PD	Applicable	

7. APPLICATION/INTERRELATIONSHIP

7.1 This Data Item description contains the format and content preparation instructions for the data product generated by the specific and discrete task requirement as delineated in the contract.

7.2 This Data Item description is applicable in contracts for which a production surge capability for select critical items is required.

7.3 This Data Item description may be used independently with, but in lieu of DI-P-7046 (Industrial Preparedness Planning (IPP) Data).

7.4 This DID supersedes DI-P-1634A

10. PREPARATION INSTRUCTIONS

10.1 Format. The report shall be in the contractor's format. 10.2 Content. The Production Surge Plan consists of the following:

10.2.1 Rate. The maximum sustainable rate of production to include a production buildup schedule by the month until the maximum sustainable production rate is achieved. When applicable, a subcontractor's vendor's capability to accelerate production/delivery of components and materials must be taken into consideration and a statement shall be included in the plan verifying that planning has been done. 10.2.2 List of Items. Two lists, one of subcontracted and one of non-subcontracted items/components, by nomenclature, part number, leadtime, and production buildup of long-leadtime, critical, or pacing items/components which could adversely impact the production rates. (See paragraph 10.2.1 above). Subcontractors and vendors shall be identified by name/address for each item. This requirement shall flowdown to whichever subcontractor tier level is necessary to adequately identify the long leadtime, critical or pacing items/components. 10.2.3 List of contracts. A list of Government contracts being performed at the contractor's facility that have a production surge provision or could be reasonably presumed to be surged. The list shall identify the contract number, the item(s), and the Defense Materials system and Defense Priority Systems priority assigned to each contract. 10.2.4 Impact. Describe what impact surging this contract would have on the performance of any other Government contract that might be currently surged with this contract, or what impact surging of the other Government contract(s) would have on the ability to surge this contract. Describe what impact surging this contract would have on the contractor's commercial business. 10.2.5 Labor. Identify all additional skilled labor requirements; i.e., machinists, tool makers, quality assurance, etc, necessary to support the maximum sustainable production rate. 10.2.6 List of Materials. A list identifying strategic or critical materials and/or precious metals, by type, quantity and cost, required to produce the item on contract or the subcontracted/non-subcontracted long-leadtime, critical or pacing item/components. This list should include rolling inventory to attain and maintain surge production within six months that could be utilized in place of the strategic or critical materials and/or precious metals. 10.2.7 List of Production equipment. A list of tooling, equipment, and costs, down to the lowest tier subcontractor, that if acquired, would increase surge production rate capability and/or reduce leadtime by at least 10%, or as specified in the contract within current facilities limitations. The estimated increase in the surge production rate and/or decrease in leadtime shall be included. Data obtained under this paragraph will not be used in the preparation of the basic plan, but may be used by the Government for developing additional capability, if deemed essential.
